AUDIT TOOL

PROGRAMMING

1. Does the Contractor have written policies and procedures that support:

YES NO

Gender Responsivity?

YES NO

Cultural Competence?

YES NO

Trauma-Informed Services?

Criteria: Exhibit A, Section III. A-C.

Gender Responsivity

Gender responsivity is defined as creating an environment through site selection, staff selection, program development, content and materials that reflects an understanding of the realities of specific genders and addresses the issues facing the Participants.

Gender-responsive approaches are multi-dimensional and are based on theoretical perspectives that acknowledge gender specific pathways into the criminal justice system. These approaches address social and cultural factors.

Cultural Competence

Cultural competence is defined as the process by which individuals and systems respond respectfully and effectively to people of all cultures, languages, classes, races, ethnic backgrounds, disabilities, religions, genders, sexual orientation and other diversity factors in a manner that recognizes, affirms and values the worth of individuals, families and communities, and protects and preserves the dignity of each.

Trauma-Informed Services

Trauma is defined as the experience of violence and victimization including sexual abuse, physical abuse, severe neglect, loss, domestic violence and/or the witnessing of violence, terrorism or disasters.

Trauma and addiction are interrelated issues in the lives of Participants incarcerated or on parole. Understanding the principles of trauma-informed services and how deviations from the principles may trigger trauma-related responses must be incorporated in program and service components.

COMMENTS:

2. Does the contractor utilize evidence-based programs (EBPs)?

YES NO

Criteria: Exhibit A, Section IV. A-B.

The Contractor shall implement and utilize evidence-based programs (EBPs). Successful implementation of any EBP requires appropriate training and technical assistance to ensure that the program is implemented with fidelity to the model to achieve the desired outcomes. For each EBP selected, Contractors shall receive and/or provide training and technical assistance in the following areas:

1. Training of individuals who will deliver the program
2. Training in curriculum and/or protocols
3. Implementation of services
4. Ongoing fidelity monitoring

- 3. Does the contractor conduct a secondary assessment for all participants as required by the contract? YES NO
- 4. What assessment tool is utilized? ASI, TCU YES NO
- 5. Is there documentation of a completed assessment in the participant's file? YES NO

Criteria: Exhibit A, Section VI. D.

The Contractor shall conduct secondary assessments at specific stages of programming, at a minimum at initial enrollment and upon completion.

In an effort to maintain consistency with in-prison assessment tools, the Contractor shall ensure the selected assessment tool is comparable to evidence-based assessment tools administrated in-prison (e.g. Texas Christian University (TCU)). The secondary assessment shall occur within 10 days of the Participants admission to the program and within 72 hours of admission for LTOs. A Participant may engage in programming prior to completion of the secondary assessment.

The secondary assessment shall determine the level of need for specific evidenced-based programming. The results of the secondary assessment shall be used to develop the goals and objectives of the CMP. A copy of the completed assessments shall be placed in the CMP file for each Participant.

Verification: File Review; policies and procedures

COMMENTS:

- 6. Upon completion of the secondary assessment, does the contractor prepare a Case Management Plan (CMP) within 21 days of admission? YES NO
- 7. Is the CMP updated monthly? YES NO
- 8. Is there documentation of a completed CMP in the participant's file? YES NO

Criteria: Exhibit A, Section V. A.

Upon completion of the secondary assessment, Contractor shall prepare in writing, an individualized CMP for each Participant within 21 days of admission. The goals and objectives in the CMP shall be based on the assessment(s) results.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial statements and for providing a clear audit trail. The records should be kept up-to-date and should be easily accessible to all relevant parties.

2. The second part of the document outlines the various methods used to collect and analyze data. These methods include interviews, surveys, and focus groups. Each method has its own strengths and weaknesses, and it is important to choose the most appropriate method for the specific research objectives.

3. The third part of the document describes the process of data analysis. This involves identifying patterns and trends in the data, and then interpreting these findings in the context of the research objectives. It is important to be objective and to avoid drawing conclusions that are not supported by the data.

4. The fourth part of the document discusses the importance of reporting the results of the research. This involves writing a clear and concise report that summarizes the findings and provides recommendations for future action. The report should be written in a way that is easy to understand and that is accessible to all relevant parties.

5. The fifth part of the document concludes the report and provides a summary of the key findings. It is important to reiterate the main points of the research and to provide a clear and concise conclusion. This will help to ensure that the research is understood and that the findings are put into practice.

6. The sixth part of the document provides a list of references. These references are used to support the findings of the research and to provide a clear audit trail. It is important to use a consistent format for the references and to ensure that all relevant sources are included.

7. The seventh part of the document provides a list of appendices. These appendices contain additional information that is relevant to the research but that is not included in the main body of the report. This information can include raw data, interview transcripts, and survey questionnaires.

8. The eighth part of the document provides a list of glossary terms. These terms are used throughout the report and are defined in a way that is consistent and clear. This will help to ensure that all relevant parties understand the terminology used in the report.

9. The ninth part of the document provides a list of acknowledgments. These acknowledgments recognize the contributions of all those who have helped to make the research possible. This can include funding agencies, colleagues, and family members.

10. The tenth part of the document provides a list of contact information. This information is used to provide a clear point of contact for anyone who has questions or who wants to request a copy of the report. It is important to provide accurate and up-to-date contact information.
