

**MESA Program: Cohort Transfers to 4-year Institution by Year, Systemwide**

This sheet shows the transfer counts for students in MESA by their 3-year cohort. The academic year indicates the first year the student enrolled in the CCC system, and gives them three years of time within the CCC system plus an additional year of no CCC enrollment before enrolling in a 4-year institution. Students were considered to be MESA students if they participated in MESA at any time during their 3-year CCC enrollment window.
